BILLY JOEL L. RANARIO

SUMMARY

With over 12 years of hands-on experience as a full-stack web developer, I specialize in leading projects from their initial concept to successful deployment. I am highly adaptive to any PHP-related tasks and proficient in working with the latest frontend frameworks, ensuring that your website is not only visually appealing and intuitive but also well-engineered, scalable, and optimized for efficiency.

I have extensive experience in building Shopify sites and creating custom WordPress themes and plugins tailored to your specific needs. Your site will be equipped with a powerful yet simple content management system that allows for easy content management, customized to your unique requirements.

In addition to seamlessly integrating third-party APIs and shopping carts, I excel at building custom solutions when existing products fall short of your expectations. My goal is to deliver a website that perfectly aligns with your vision and meets all your business needs.

PROFESSIONAL EXPERIENCE

The Hustle, Ltd. — *Fullstack Developer*
